

How to create a business listing on visitma.com

- **Log-in or create an account:** <https://business.visitma.com>. This information is for internal use only. New accounts go through a review process that typically takes about one business day before they are active.
- Create a listing for your business.
- Include your website, address, phone number, and email address.
- Upload an image. Profiles with an image appear at the top of search results. Click on "upload new picture." Add a high-quality photo, 628 x 628 pixels.
- Add header copy. This should be one sentence that succinctly describes what you're primarily offering, or otherwise describes the business. E.G. Whitcomb Summit Retreat "Spectacular mountain top view from every room!"
- Add description: Keep description short but enticing. Offer an idea or two to spark interest.
- Anything posted to the database - new listings, events, deals, and any updates to existing listings, events, and deals - goes through a review process that typically takes about one business day.
- Once something is approved, it may take up to 24 hours to see your listing live on the website. Once your business listing is published you can:
 - Create listings for events, which will appear on both your business profile and the [Events page](#).
 - Include deals, specials, and promotions, which will appear both on your business profile and the [Deals page](#).

Update your listing regularly to switch out copy or imagery or to add new events and deals.
